1. Source believes dredging work will be done on the canal connecting the village of Devnya (N 43-13, E 27-33), on the shores of Lake Devnya, and the port of Varna in order to permit ships of medium tonnage to arrive directly at the industrial zone where a soda factory is under construction.
2. Fifteen kilometers circa south of Varna, there is a tower antenna of considerable height with red nocturnal signals. It is situated on top of a dominating hill.
